Online Privacy

No one intends to be unsafe online, but it's important to have tools that help you protect your devices, connection and identity. Chances are your personal info is already out there, making you more vulnerable to cybercrime.

Norton LifeLock Benefit Plans were created to help employees feel protected and confident in our connected world.

LifeLock Identity Alert™ System[†]

Everyone's identity is unique. We monitor[†] for fraudulent use of your Social Security number, name, address and date of birth in applications for credit and services. You will get alerts when a potential threat is detected. And it's backed by world-class service. Our dedicated specialists will work with you to resolve ID theft issues.

- **Credit Alerts / Social Security Number Alerts[†]**
- **Identity Verification Monitoring[†§]**

Dark Web Monitoring[§]

Identity thieves can buy or sell your personal information on hard-to-find dark web sites and forums. We patrol the dark web and notify you if we find your information.

- **Dark Web Monitoring – Password Combo List[§]**
- **Dark Web Monitoring – Gamer Tags[§]**

Social Media Monitoring

You can help keep your social media accounts safer with our new Social Media Monitoring* feature. We monitor the social media accounts that you have linked, and notify you if your account may be compromised or if we find potential risky links. We'll also help protect your children against cyber bullying on their social media feeds, and provide notifications of posts that may be sexually explicit, drug-related, violent, or hate speech.**
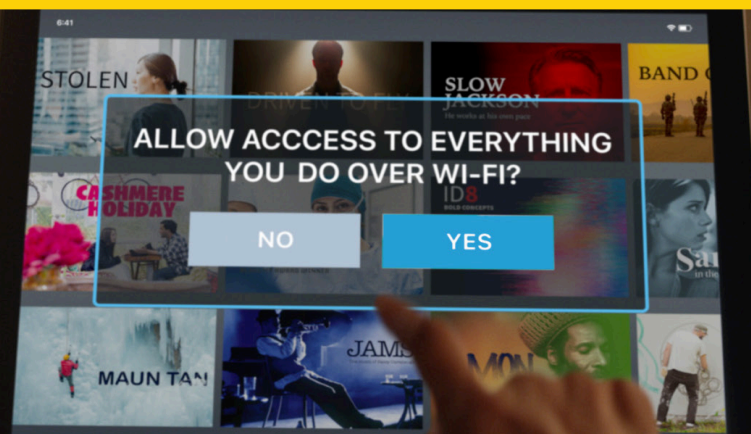

ALLOW ACCCESS TO EVERYTHING YOU DO OVER WI-FI?

NO   YES

Your family's information is out there, too.

Kids tend to be less concerned with safety than their parents. It's why we include Norton Parental Control to help you manage your kids' activities online so they can explore, learn, and enjoy their connected world safely.[1]

Parental Control[§]

Parents can now take an active role in how their child engages with the digital world. With Norton Family Parental Control[§] **, you can take action to monitor your child's online activity and identify potential dangers before they become problems. This feature includes easy-to-use tools to set screen time limits, block unsuitable sites, and monitor search terms and activity history.

Parent Portal

Helps you manage protection for all your child's devices with an easy-to-use Web portal.

Parental Mobile App*

Stay in the loop about your kids' online activities from your Android or iOS mobile device and adjust settings when you're on the go.

Instant Lock

Parents can help kids take a break by locking the device, so they can re-focus, or join the family at dinner. Individual devices can be unlocked with a PIN. Parents and children can still contact each other while the device is in lock mode.

How can I protect my personal info on my devices?

These days, so much of life happens online, that "digital life" is really just life. Shopping, learning, playing, banking and connecting are literally at everyone's fingertips. With every door that opens possibilities online, a new door can open for cybercriminals.

### Norton Device Security, including antivirus protection**

Devices, whether mobile or desktop, are a fact of every-one's connected life. It's a no-brainer that you should have real-time threat protection for those devices. Multi-layered, advanced security helps protect devices against existing and emerging malware threats, including ransomware, and helps protect private and financial information when employees go online.

Includes antivirus protection, *plus*

- **Smart Firewall**[§]
- **Norton Cloud Backup**[2§]
- **Norton Password Manager**[§]

(Not all products, services and features are available on all devices or operating systems. System requirement information on Norton.com.)

Online Privacy

Your online privacy and security are becoming harder and harder to protect. With multiple devices and Wi-Fi connections, it's becoming easier for cybercriminals to access your personal information. Your online behavior may also be at risk of being exposed as companies can track your browsing history and other data.

Norton Secure VPN
Protects devices and the information on them on vulnerable connections and keeps your online activity and browsing history private.

Privacy Monitor
Scans common public people-search websites to help you opt-out.

Norton SafeCam
Alerts you and blocks attempts to access your webcam.[1]
Screens modified for demonstration purposes.
Features may differ depending on plan.
We help keep your digital life a safer place.

Take the easy step to help protect what's important to you and your family. Your info may be out there, but safety starts here – with you.

Plus, we help protect you with our Million Dollar Protection™ Package.†††

Restoration

Real, live agents are available to answer questions 24/7. If you have an identity theft issue, a dedicated U.S.-based specialist will work from start to finish to fix it.

Million Dollar Protection™ Package†††

If you become a victim of identity theft while a LifeLock member, we will provide the necessary lawyers and experts, if needed, to help resolve the case.

If you have money stolen due to identity theft, we will reimburse up to $1 million. And we will cover personal expenses incurred as a result of identity theft, up to the limits of the your plan.

- **Up to $1 Million for Stolen Funds Reimbursement**
- **Up to $1 Million for Personal Expense Compensation**
- **Up to $1 Million for Coverage for Lawyers and Experts**

ENROLL TODAY!

By providing your name, Social Security number, date of birth, address, phone number and email for yourself and any dependents you wish to enroll.

* If you do not have a telephone number or email address on file, a monthly alert overview will be mailed to your address on file via U.S. Postal Service.
