

# CMH Research and Missouri Memory Center **FREE COGNITIVE SCREENINGS**

**April 10 | 8:30 a.m. to 4 p.m.**

**Henry County Health Center** 111 N. 3rd Street, Clinton

Pre-Registration is required to have Cognitive Screening. Please call 660-885-8193 to schedule today.

## **IDENTIFY COGNITIVE IMPAIRMENT EARLY**

Medicare recommends individuals aged 65 and older undergo yearly screenings for cognitive impairment. Younger adults experiencing concerns or symptoms should also be screened. It takes about 30 minutes and trained staff perform the screenings. The results are available immediately to share with your primary care provider.

The CMH Research Department and Missouri Memory Center will host Free Cognitive Screenings on April 10, from 8:30 a.m. to 4 p.m., at the Henry County Health Center, 111 N. 3rd St., Clinton. Pre-registration is required. Call 660-885-8193 to schedule.

Early detection of cognitive impairment is vital for timely intervention and planning. Take charge of your cognitive health today!
